HENRY HEUER GOES TO ENGLAND; BIG STEAMER LEAVES THIS PORT

CURRY WILL MAKE RACE FOR CORONER

The political pot is beginning to boil in Richmond.

Bert Curry has tossed his chapeau into the circle as an aspirant for county coroner.

Curry contemplates no half-hearted efforts, according to reports, but will make a close canvass of the county, and says he "expects to be elected."

Four years ago when he made the race against Charles F. Donnelly, incumbent, he came within 246 votes of the goal.

Curry got some Tennessee blood flowing through his veins, and knows the best tactics used by Old Hickory and James K. Polk, two other Tennesseans who reached high places in American politics.

Some of these embryonic assemblages may be the next to declare themselves.

Is Tarr Calfee going to get in the game?

And how is Heinie Kammerer coming on with his campaign?

Will one or more of Richmond's strong lawyers get in and mix it with District Attorney Tinning?

There have been rumors that one or the other of two well known criminal lawyers here might go after the job of district attorney.

Y SECRETARIES HERE NEXT WEEK

Secretary V. D. Brammer of the Richmond Y. M. C. A. announces that a conference of the Y. M. C. A. secretaries of Northern California will be held here on Monday and Tuesday, May 22 and 24.

Over 75 secretaries are expected to attend the sessions, which will include an elaborate dinner at Martin's Grill on Tuesday. The session of the conference will be held in the First Christian church. Among the many speakers will be E. J. Hill of Los Angeles, state Y. M. C. A. secretary; Ralph Cole, state secretary of boys' work; General Secretary Perkins of the San Francisco Y. M. C. A.

Roberson and Lee Have Fun in Sacto

Attorney Will S. Roberson and George Lee, financial broker, joined a party of Oaklanders who went up to Sacramento Friday evening. Roberson played a stellar role in a kangaroo court proceeding, and for his pains and marked histrionic aptitude got preferred position in the daily papers of the capital city Saturday.

He and Lee report a wealth of whistlers in evidence throughout Sacramento, and say that all roads will lead up the valley for the '49 high links that are to hold the boards there soon.

Craven Hospital Owner Is Sailing Soon for Europe

Mrs. Eugenia Sharkey, for many years in charge of Craven hospital at this place, yesterday said in Richmond bidding good bye to friends prior to her departure for New York. Mrs. Sharkey has booked passage for early sailing for Paris, and after a few weeks in the gay capitals of continental Europe she will go to England and visit relatives in and near London for a few months.

Ultimately Mrs. Sharkey will return to California.

Of course.

Lions Back Home Gentle As Li'l Lambs

All the members of the Richmond Den of Lions who attended the state convention of the organization at Fresno, returned home last evening, tired but happy, and reported having had the time of their lives.

There were about 700 Lions from all parts of the state in attendance, and many amusing stunts were pulled off by the different dens.

Richmond twenty strong, in their native costumes made a great showing, and the orchestra was one of the hits of the convention.

\$1,000,000 PRICE OF G. G. SUB STATION

Before the end of the year, the Great Western Power Company of California expects to have its mammoth substation, in the hills near Richmond, known as the Golden Gate substation, and which will cost \$1,000,000, completed and the bay cable laid and in operation, according to a statement made yesterday at the offices of the company.

Work was commenced in the early part of April and the steel framework of the reinforced concrete building is now being erected.

This station will be the principal distributing point for the company's rapidly increasing load in the San Francisco bay region, and, in addition to providing additional capacity, will improve this company's service in this territory.

The building will be equipped with a 75 ton traveling crane and it will have railroad spur track facilities. It will house two 15,000 K. V. A. synchronous condensers, with necessary switching, metering and regulating equipment. A transformer bank of 44,000 K. V. A. and one of 30,000 K. V. A. will be installed for the purpose of transforming electric energy from 165,000 volts to 100,000 volts, and from either 165,000 volts or 100,000 volts to 11,000 volts.

This station will be the terminus of the 165,000 steel tower transmission line from the new Caribou plant located on the north fork of the Feather river in Plumas county, placed in operation last year. The double circuit 110,000 volt steel tower line from the Las Plumas plant, which passes through Oakland will also be connected with this substation.

Energy will be transformed from these lines for distribution to the bay region at 11,000 volts. An 11,000 volt submarine cable with a capacity of approximately 10,000 K. V. will be laid from a point on the shore of San Francisco bay, near this substation, to San Francisco, for the purpose of supplying the rapidly growing load in this city.

This cable, which is approximately seven miles in length, will be the longest high voltage submarine cable of its capacity in the world, and will be the fourth cable operated by the Great Western between San Francisco and the east bay shore.

The Las Plumas plant, which is the largest hydro-electric plant west of the Mississippi river, with a capacity of 87,000 horsepower, and of 64,000 horsepower, will feed the Caribou plant, with a capacity directly into this substation and will provide a surplus of hydro-electric power to the bay region.

Elks' Black- Face Beauties at Sacramento

All bright and gay like a painted ship on a painted ocean, the Shinoia Shines of Richmond lodge of Elks left last night for Sacramento where they were scheduled to stage their inimitable cut-up, known as the mock ritual, for the Sacramento Elks.

"Kid" Annett came over from Oakland and joined the gang here. Denny Shaw, who was attending the Lion's convention at Fresno, was booked to motor up the valley and be in the capital city in time to direct the music.

Eddie Helzen, in the club at the time the party was making its getaway, got caught in the rush, and was whisked away with 'em. O yes, Dick Spiers and Charley Bulger joined the comedians, too.

The black-face beauties included: Fred Lutz, Ed. Dale, James McHann, Harry Hennessey, "Ole" Selein, James and Don Stewart.

Harold Calkins' Father Passes Away

Harold M. Calkins, of Daly City, formerly of Richmond, has received news of the death of his father, Henry M. Calkins, at Los Angeles on May 10. The deceased was a veteran publisher of California, and at the time of his death he was publishing a newspaper at Shafter. He was a victim of some malignant throat affliction, and was removed from his home to a hospital in Los Angeles, where he died.

Jerome Shaffer Speaker Monday at Richmond Club

Jerome Shaffer, lecturer and impersonator, will be the chief attraction at tomorrow's meeting of the Richmond Club. He will take for his topic "Civics." As the club is observing Civics Day.

There will be reports read from the county federation and the state federation of Women's clubs.

Mrs. Clara Wilson will be chairman of the day.

Civics Day Tuesday at Civic Center Club Meeting

"Civics Day" will be observed by the Richmond Civic Center Club at their meeting on Tuesday, May 16. All members are urged to be present, the following interesting program being promised.

Address—Mrs. Florence LaMay, of San Francisco.

Instrumental duet—Carmen and Ethel Vestal.

Vocal solo—Mrs. E. E. Stewart.

Instrumental solo—Ethel Vestal.

Refreshments will be served.

The chairman for the day is Mrs. L. C. Hayward.

Party Is Given For Mary Page

A very enjoyable surprise party was given in honor of Mary Page last night at her home on Bissell avenue. The evening was pleasantly spent in playing games, refreshments were served. Those present included:

Jane Vargas, Salvatore Pott, Lilian Vargas, Sam Mills, Edna Muth, Walter Hadley, Naomi Mahne, Randolph Stanley, Jeannette Fess, James Hoskins, Charlotte Page, Chester Shaw, Mary Page, Harry Osborne, Isabelle Myatt, Arthur Grey, Gladys Hunt, Louis Savin, Elaine Amend, Henry Amend, Lucille Muth, James Vargas and Owen Stanley.

J. E. Hill, Life Insurance Removes Offices

J. E. Hill, special agent of the States Life Insurance company, has moved his headquarters from the Elks building to 625 Fifth street.

Giant Ship Lifts Anchor For Orient

Drawing 20.2 feet of water, the good ship "Apus" moved out majestically from the municipal docks at 6:30 last evening.

A Record-Herald representative reached the dock just in time to see the big steamer turn her prow into the open seas, as her bright painted hull swayed easily upon the bosom of the bay.

She had taken aboard 2,000 tons of case oil, Associated Oil products, and was scheduled to go into the Parr Terminals, whence she will sail for Shanghai. Her tonnage is ten thousand.

She has a crew of forty-three men. She makes about thirteen knots an hour.

She piles regularly in the trade to the Orient.

Her home port is Vancouver, Washington.

As a result of the front page story carried exclusively yesterday morning in the Record-Herald there was a steady stream at Richmond people to the docks yesterday.

When the good ship lifted anchor and started out to sea last evening there were a few skeptical folks who feared she might stick somewhere, but the fears were not warranted.

It is assumed, with reason, that hereafter ships of like tonnage and dimensions will come frequently into the Richmond docks.

The "Apus" belongs to the Strouthers & Barry line.

May 15 Last Day to File Certain Income Tax Returns

Collector of Internal Revenue John P. McLaughlin sent out final warning yesterday that Monday May 15, is the last day on which partnership and personal service corporations and fiduciary returns may be filed. No further extension will be allowed.

"A general extension was granted in January," said Mr. McLaughlin, "permitting the filing of these classes of returns up to and including May 15, which is the last day. This is final."

"This extension was granted with respect to the returns above referred to, which are required to be filed for the calendar year 1921 or any fiscal year ending in 1921."

A penalty of not more than \$1,000 attaches for failure punctually to make a required return and if failure is willful the offender is liable to imprisonment and to a fine of not more than \$10,000 and costs.

Richmond Girl Bride in Triple Wedding Saturday

MARTINEZ, May 13.—Justice of the Peace Frank Glass set a new record for Martinez ministers and judges to attain today and incidentally made six young people happy. Judge Glass in the time he has been justice of the peace has had several double weddings but today he performed his first triple ceremony.

The couples he married were Burton Merritt and Esther Johnson of Mountain View; Albert Morton and Ruth Pearson of Mountain View, and Charles A. Barber, of Sacramento, and Abbie Valley of Richmond.

Richmond Team At Lodi Today

The Richmond baseball club will play its first game away from home this afternoon against the fast Lodi team at Lodi. Johnny Garvin and Chick Antry and their gang will leave here this morning at 8:15. The trip will be made by automobile and a large number of fans have promised to go along. The meeting place will be at Twenty-third and Macdonald.

Kersten will open up on the mound for the Richmond outfit and Skipper Roberts will catch. Rubart will cover the short territory in place of Lamara.

LICENSED TO WED.

Ernest L. De Baca, 21, and Martha Alice Dye, 17, both of Richmond.

Richmond School Boy Shipping for London on Standard Oil Boat

Henry Heuer is going to sea. He has been given a job on the Standard Oil tanker H. M. Storey, which is now loading for early departure for England.

The young chap who a few short weeks ago stood in the very shadow of San Quentin's grim, gray walls, is now engaged in a gainful occupation. He's got a man's sized job on the tanker.

He will earn his bread in the sweat of his face.

A job on one of the tankers is not child's play.

A stoking job is no sinecure.

A Backward Glance.

Heuer, seventeen year old strippling, who found himself swept into the vortex of a tragedy. The lad who was one of the angles in the eternal triangle, and found himself looking through the windows of a felon's cell, and who felt the mulling circumstances that grip a man charged with a capital offense slowly but surely enveloping and constricting him, can look back on the incidents as an ugly nightmare.

He is going to London.

When he walks up the Strand, and makes peeps in at Whitehall, he can call to mind the legendary words: "Turn again Whittington, three Lord Mayor of London."

Where Gold Abounds.

The Yankee lad with pluck and initiative can stand in Lombard street and visualize himself as a Morgan or a Rothschild.

Yea, maybe as he leans against the Nelson monument that marks the victory that spells Trafalgar, he will picture himself in the uniform of an admiral.

The museums of the world's treasure in literature will be open to him.

He can visit the art galleries and

Harmony Court Dancing Party

Harmony Court No. 33, Order of the Amaranth, entertained last evening with a very enjoyable dance in Masonic hall. Following a short business session that was presided over by Worthy Patron H. J. Hill and Worthy Matron Mrs. C. Rogerson, dancing was held until a late hour. The music was furnished by Shaw's orchestra.

Those who did not care for dancing devoted the evening to whist. Prizes were won as follows: Ladies' first, Mrs. V. E. Matthews; gent's first, J. M. Read; second, J. T. Narbett; third, Carl Overma; fourth, H. H. More; fifth, Mrs. Winder; sixth, Mrs. L. A. Black.

The committee in charge of the affair was composed of Miss Ivy Lee, chairman; assisted by Mrs. Amy Muggs, H. J. Hill, C. C. Olney and W. T. Helms.

VARSITY FRAT MEN IN BURG AUTO TANGLE

Four university students, all prominent in social and athletic circles, will appear before Judge Robert Edgar of Berkeley next Thursday to answer to a charge of felony. It is alleged that the men took an automobile without the permission of the owner early yesterday morning.

They are Charles F. Erb, football star and captain-elect of the varsity football team, of Los Angeles; Walter Middleton O'Brien, sophomore, and varsity football star; Theodore B. Merrill, senior, of Berkeley, son of W. A. Merrill, professor of Latin at the university; Reginald L. Vaughan, son of a clergyman and senior at the university; James Maloney, a laborer of Emeryville, who was arrested with the students and jointly charged, will appear in court also.

The four students and Maloney, who declared he went with them to show them the way to several bootlegging establishments, were arrested by Patrolman George Hansen at San Pablo and University avenues.

According to the police report, the five men were riding in a machine belonging to Edward A. Baze, 69, Hillcrest road, who parked his car in front of the Sigma Alpha Epsilon fraternity house. Patrolman Branton yesterday swore to warrants for the arrest of the five students and Maloney. They were released on their own recognizance. Judge Edgar warned them to appear in court, and spoke of the seriousness of the charge upon which a one to five year sentence may be imposed, if the students are found guilty.

The men declared they took the machine believing it to belong to a fraternity member.

Adele Biggs Will Wed on Thursday

A number of local people have received invitations from Mrs. Harcourt Galt Biggs, of 2648 Parker street, Berkeley, for the wedding of her daughter, Miss Adele Biggs, to Richard B. Chaplin, of Alameda. The ceremony will take place in the rose room of the Hotel Oakland, and will be followed by a reception to relatives and immediate friends.

The bride-elect is well known in Richmond, where she resided until several years ago when the family moved to Berkeley. Mr. Chaplin is engaged in the automobile business in Alameda, where the young people plan to make their home.

MRS. ELIZABETH C. SOTO RETURNS FROM THE SOUTH

Mrs. Elizabeth C. Soto of the Realty Exchange, who returned Friday night from an automobile trip to points in the Santa Cruz mountains, reports that the Santa Cruz-Los Gatos highway is in very good condition. While in the mountains, Mrs. Soto closed a deal for a ranch near San Jose, and also listed a number of ranches in exchange for Richmond properties.

THINKOGRAPHS By F. J. HULANISKI

SUNDAY MORNING SERMON

Well, here it is Sunday again, and time to go to church and chip two-bits in the contribution basket, which we haven't got because we gave it to the movie picture trust; and time to say our prayers, and take an account of what we have been doing during the week, or who, in everything; and we find upon taking invoice that we are about as wicked as we were last Sunday, and likely you are, too. Time sure does fly, and first thing we know old St. Peter at the gate will be asking us what we did with our summer's wages, and how come it we spent all our money for gas and so very little in maintaining the everlasting gospel and helping our less fortunate fellow human beings. Gosh! We haven't the remotest idea what we will say. Probably hum and haw and stutter and splutter, and make excuses and try to prove an alibi. And all that, and finally beg to be given just one more chance, to go and help shine up the crowns, and tune up the harps and dust off the silver clouds, and the like. Come to think of it, though, we all better be doing a little of that crown shining and harp tuning while we have the chance, for the bulk of us must be "in red" on the books of the heavenly recorder, because mighty few of us are anything like heavenly. On the contrary, a lot of us are devilish.

And speaking of people being devilish, just look at those so-called and alleged statesmen now in attendance upon the Genoa conference. They were sent there by their various nations to map out a plan of peace, brotherly love and the cessation of all bloody warfare; to reconstruct and reorganize and get down to common sense, bury the hatchet and open a way for peace, prosperity and happiness. Instead of all that they are haggling over which shall grab the biggest hunk of bread and meat and the largest slice of trade and money. Each and all hate the other. Each are in league with the devil, in that selfishness and greed is put ahead of charity and tolerance. Each wishes to rob the other. None have any Christian kindness in their breasts; all have knives in their sleeves and the unscrupulousness of Satan in their addled brains. Russia demands a colossal loan of money and recognition of the Soviet government, and look how inconsistent that is: The Soviet government, composed largely of Lenin, Trotsky, and a band of other cut-throats sent in there by Germany to debauch and plunder the country, have repudiated their debts. They hold as law that the State is supreme and all individual possessions belong to the state. How can money be loaned to any such an outfit as that, with no security, and whose word is not worth the paper it might be written on? The United States will not recognize any such a government, and probably France will not, either. Poland was given back its old-time territory, taken by Russia and Germany, and now sits between the two with the positive knowledge that both those big countries will eat her up again at first opportunity. We are not delving into such things this Sabbath morning for the purpose of taking sides with those belligerents over there, but merely to point out that, from a world-wide view, the people are much more prone to be devilish than godly and pious. The commands of Almighty God and the precedent of the Savior are set at naught, and Mammon sits enthroned upon the thrones of the earth.

We cannot worship Mammon and God at the same time. It must be one or the other. If we worship Mammon, then we cannot and do not do right, but do anything in order to get and keep wealth. And if we worship God we cannot well get rich, but can enjoy life and lay up a richness in heaven that will come in mighty handy when the day comes for us to enter Charon's black skiff and be rowed across the river Styx. Another war is already threatening Europe, and it looks as though it was only a matter of time until it breaks out afresh. Wouldn't you think that in view of all the horrible suffering they have recently passed through with, and with millions of them almost starving to death right now, and all of them practically bankrupt,

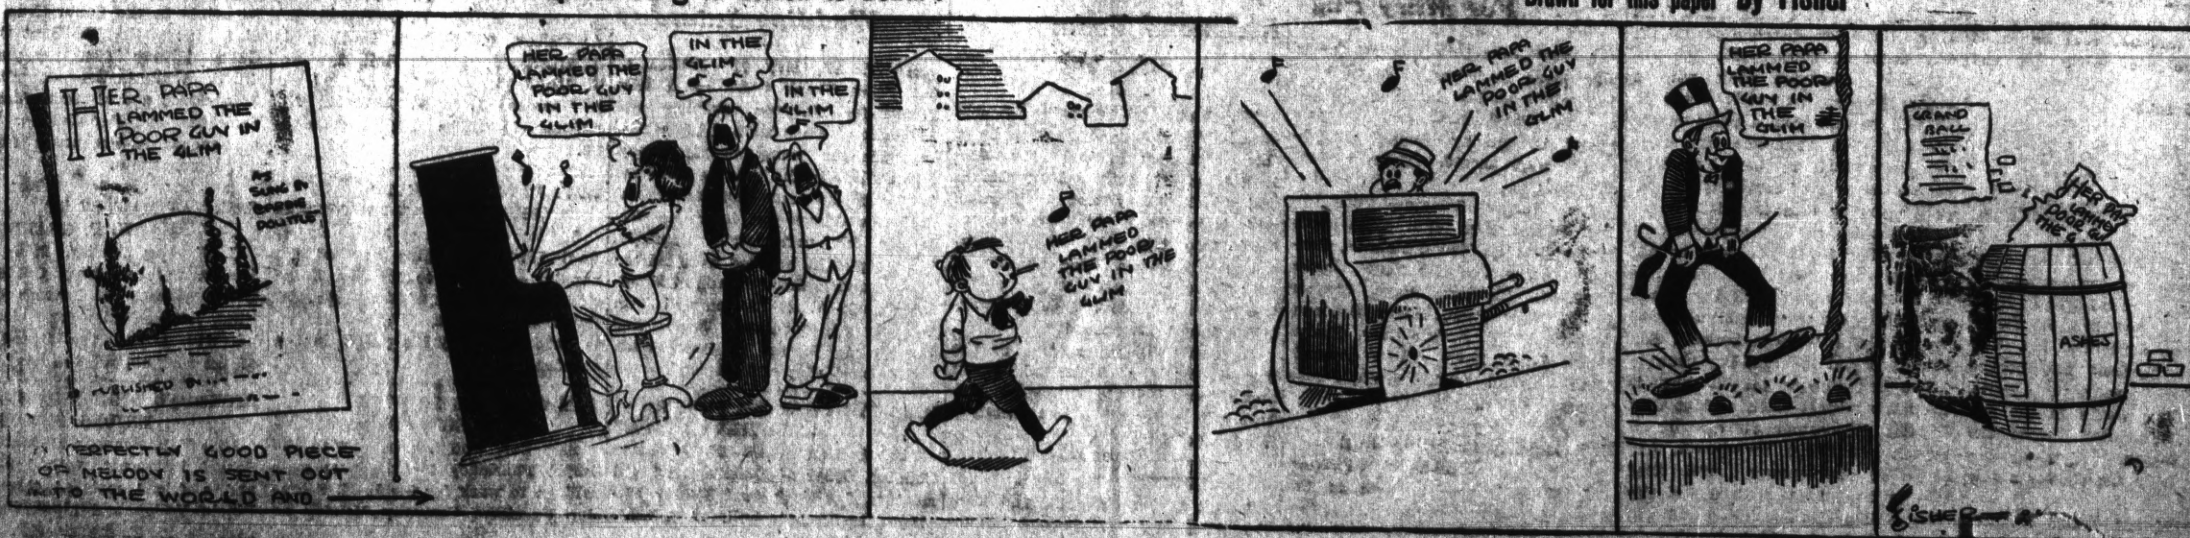

that the leading men of those nations would realize that they cannot hope to ever gain anything by continuing in the paths of the devil, and that they never can get right again until they look upward and seek guidance from God? How they can continue to haggle and hate, and use the methods of the dark-lantern assassin is almost beyond human comprehension. But from it we can plainly see just what kind of mud and common clay mankind is composed of. Did you swindle a fellow man out of a few dollars last week? Did you give your employer less of your time and endeavor than you were paid to? If a merchant, did you charge more than a fair profit, or put the ripe strawberries on top of the basket and some spoiled ones at the bottom? If so, you are not any better than the Germans and the Russians, or the Savages, or the Cannibals, and or any other lumps of Hell. It is all merely a matter of degree. A little rascal is just as ornery as a big rascal.

But why should any of us be rascals at all? There is no necessity for it; it does not pay; it is altogether foolish, as well as wicked. As a general rule, if we treat other people fairly, decently and honestly, they will treat us the same way, and vice versa. So we can pay our money and take our choice. It is a fact that the world and the people are getting better all the time, but it sure is a slow process.

Out in our garden now the roses are blooming in great profusion, and the bright, yellow poppies, and daffodils, and white lilies, and many other beautiful flowers, which, with green lawns and trees waving their foliage in the day breezes, make life a pretty picture, and every day we give thanks for all this. Only a few weeks ago they were all bare of fruit or flower, but the glad sunshine of spring quickened them all back into life. And so will it be with us. Though we seemingly die and wither away, yet the warmth of God's love will bring us back to life again—life eternal. There is no such thing as death. It is but a dream, a mirage, a fantastic bit of imagination. The passing of the spirit from the body takes but a second, and that is all there is to death. The next second we are more alive than ever before. Some few people talk differently, perhaps, because they like to hear the sound of their own voice, but none of them make any talk like that when the last illness comes. Then they change their tune and begin to look out into space for the glad sunshine of eternal love that is to warm their poor chilled hearts and minds. A few days ago it hailed, but the roses and the bright little yellow California poppies just kept right on blooming and smiling, because they knew that in an hour the hail would melt away and be forgotten. But we mortals have little of that good philosophy. If a dark cloud comes over our lives for a brief period, and hail beats upon us, we howl and scream and groan, and refuse to be comforted. We ought to learn a lesson from these beautiful flowers of spring, and remember that in a short time the clouds will roll by, the bright sunshine come out again, and whatever it was that troubled us pass away and be forgotten in a short while.

This scribe gets up every morning at 5:30, because that is when the sunshine gets up, and when we see it out of an east window blazing red over the Sobranite hills, making the glittering dew red on the grass and flowers scintillate like myriads of diamonds, we say, "God bless the sunshine!" That means other things, also; but the word sunshine sort of encompasses it all. Then we make coffee and go out and cut a big bouquet of roses, bright with the morning dew and beautiful in all the colors of the rainbow. These adorn the breakfast table by the side of a dish of California oranges, and when we come in from feeding the chickens there is on the table a good breakfast, luscious fruit, beautiful flowers and the genial sunshine, presided over by a good wife. Why shouldn't we say, "God bless the sunshine?"

Homely Little Girl Grows up Beautiful

"Land sakes, Katie! You don't mean to tell me that this pretty young lady is the same homely little Martha who used to like her old auntie's cookie jar pretty well when she came out to the farm to visit? Why just about twelve years ago she was homelier than a mud fence. And now I don't know when I've seen a prettier young girl."

"Yes, sister, she's the same little girl. She's been busy growing right up since we came out West. But you mustn't tell her how pretty she is. It might spoil her."

"Now, another, if auntie thinks I'm pretty she must be right. But don't you worry about it spoiling me. I notice that I'm not so terribly good looking unless I get on the right kind of clothes. Oh, auntie, I want to show you my new dress. I know you will like it on me. I'm so happy since I learned how I could get a lot of pretty clothes and not spend all my allowance for them, either. I found the nicest place at 515 13th street—Cherry's—where they allow one to buy clothes on credit. So much down and so much a month. That's where I got this new dress I am going to show you."

Cherry's store for men is at 528 13th street.—Advertisement.

F. N. B. Clash With Bay Point

The First National Bank baseball team will go up against its strongest opponent in the Three C league this afternoon when it clashes with the strong Bay Point club. Savin and Austin will constitute the battery for the local boys. The bankers will have to have their hitting toes on if they expect to beat Murchio, who will twirl for the Bay Point crew. Murchio is a former University of California star and pitched for the Crystal Laundry in the late Enquirer league.

Smalley Tailors To Livermore Today

J. E. Smalley will take his Tailors to Livermore today, where they will hook up with the Livermore team in what promises to be a hot battle. The Cowboys will be hard to beat in their own backyard. Centers and Soby will be the battery for the Tailors.

The Scott Gas Range Is Here

—You have been looking for this wonderful Range. There is no other Gas Range in the world like the Scott. Here is what it does:

- No. 1** Stores hot water while you cook your meals.
- No. 2** Roasts and bakes with the surplus heat from cooking top.
- No. 3** Makes the whole range top a cooking surface.
- No. 4** All objectionable odors are prevented from circulating about the kitchen by the polished steel top on the cooking surface. The gas, after combustion, strikes the steel top and is carried away by the perfect combustion and flue construction.

See This Wonder-Range demonstrated in our window. We shall be delighted to show it to you

SHARP DIAMOND BATTLE TODAY BETWEEN POINT AND RICHMOND CLUBS.

A hot battle is anticipated today between the Point Richmond Athletic Club team and the Richmond Cubs. The game will be played on the Point diamond and will start at 10 o'clock sharp. The Point boys have one of the fastest teams on the West Side, while the Cubs have been defeating practically every nine on the other side.

The West Side boys put in a strenuous practice yesterday afternoon in final preparation for the contest this morning. Boyd Hecker's arm appears to be in good shape and he should duplicate his wonderful pitching performance of last Sunday.

The Point club is expected to line up as follows: Donneworth, 10; Le Luna, 3b; Casey, ss; Dick Paasch, 2b; Hecker, p; Morrison, c; Novarino, 1b; Chasseur, cf; R. Paasch, rf.

BEAUTIFUL PRIZES ARE PROMISED AT WHIST PARTY ON MONDAY.

CHILDREN IN SPRING TIME

Mrs. C. Osborn, 7812 Hillside Rd., Cleveland, O., writes: "My granddaughter was troubled with a cough for nearly two years. She took Foley's Honey and Tar and her cough is now gone. It loosened the phlegm so she could raise it easily." Foley's Honey and Tar is just what children should have. It cures colds, coughs, "snuffles" and tight, wheezy breathing. Be sure to get Foley's. It checks croup and whooping cough, too. Sold everywhere. Adv.

Piston clearances

4/1000 of an inch when cold 1/1000 of an inch under fire

An automobile engine having a 4" bore will have when cold a clearance between its pistons and cylinders of approximately 4/1000 of an inch. When the same engine has been heated to operating temperature, this clearance will have decreased 75%, or to 1/1000 of an inch.

Likewise, a main crankshaft bearing having a clearance of about 1 1/2/1000 of an inch when cold, will show a decrease in this clearance at operating temperature to less than 1/2/1000 of an inch.

All oils lose viscosity, that is, they become lighter in body when subjected to the heat of engine operation.

An analysis of Zerolene shows that the differences in its body at the various engine temperatures, from cold to operating temperature, follow in close relation the decrease in bearing clearances.

The right body at all operating temperatures

For this reason Zerolene oils have at all engine temperatures exactly the required body to splash and flow freely into the fast-moving, small-clearance bearings to provide an adequate film of lubricant.

Because of their "oiliness," Zerolene oils cling to bearing surfaces, and at the same time offer in themselves a minimum of resistance to the engine power going to the driving wheels. For this reason they give perfect lubrication and permit the development of the maximum power, speed and gasoline mileage of the car.

VETERAN OF CIVIL WAR REVEALS HEALTH SECRET

Tells of Wonderful Remedy That Has Kept Him Fit for Thirty Years

The Civil War ended more than fifty years ago, and the veterans of that great conflict are rapidly passing. The soldiers of that period endured many hardships, were exposed to the elements and in many cases, were ill fed. These conditions led to chronic ailments of all kinds, such as rheumatism, lumbago, sciatica, constipation, heart trouble and diseases of the kidneys and liver.

One veteran, Mr. Abram

Arnold, R.F.D. No. 2, Campbell, N. Y., now in his 77th year and hale and hearty, tells how he has kept himself in good health. He writes:

"I have made use of Dr. A. W. Chase's medicines for 25 or 30 years and during that time they have never failed to do all that is recommended of them. I am a veteran of the Civil War—almost 77 years old, and was through fifteen hard fought battles, but am still living with the help of Dr. A. W. Chase's Tonic

Fills. I have a bad heart, and find these pills of wonderful benefit for this trouble. Anyone wishing further particulars may write me, and I will gladly reply, as I want people to know of this wonderful remedy."

You can buy Dr. A. W. Chase's remedies at all drug stores. To be sure of getting the genuine, see that portrait and signature of A. W. Chase, M. D., are on each box. This is a trade mark for your protection against imitations. Advertisement.

FRATERNAL CARDS Stomach As Heavy As Lead
March 16, 1932.
I suffered from dysentery and difficult breathing, my bowels moving constantly with bloody discharges. I also had murning indigestion and my stomach felt as though there was a piece of lead in it. Failing to get relief elsewhere, I took the herbs of the FONG WAN HERB CO. for two weeks. My former complaints have left me entirely and I am now enjoying good health. MRS. P. J. SNOWBERGER, 1409 Madison St., Oakland, Calif. Suffered Unnecessarily

At intervals I suffered severe pleurisy pains which began in the right side of my chest and ran around under my arm into my shoulder blade. It was both painful and difficult to raise my arm. I had taken various sorts of treatment for the trouble, but had found no relief. Now, after seven weeks of the FONG WAN HERBS, the pain in my chest is entirely gone and I feel quite well. I bought the herbs in packages and cooked them at home. MRS. F. CATCHART.

WEEKLY Development SECTION

Richmond's Destiny: Future Rests on Port and Factory Growth

Within five years Richmond will be pre-eminent among the cities of the West in two particulars: First, as a shipping center; and second, as an industrial center. However great or small may be its development in other directions, no power on earth can prevent its fulfilling its destiny as the industrial and shipping metropolis of the Pacific.

The combination of circumstances that makes possible—indeed, makes certain—the growth of a comparatively small city to one of the commercial capitals of the world, in a single decade, is unique in the history of mankind. In the first place, there is the completion of a canal that will revolutionize the trade-routes of the world, bringing to the great West coast harbor a tenfold increase in shipping. In the second place there is on that harbor the perfect site for a shipping and industrial city, where the solid land meets deep ocean water. In the third place, there are the transcontinental railroads converging here, almost at the waters edge. And in the fourth place there is the fact that the only existing port on the harbor is already overcrowded and totally inadequate to handle the certain increase of shipping business. When one considers these unusual circumstances, and then sees that Richmond already has awakened to its unique possibilities, and has employed experts to draw up and execute far-sighted plans for the wisest conservation and development of those possibilities, the miracle of the city's impending growth seems perfectly assured—though no less wonderful.

Novelties Crowd Bill at T. & D. Theater Today

A great comedy and vaudeville bill of novelties comes to the Richmond T. & D. theatre with the current attractions on Sunday next. Frank Shannon, "A Son of Erin," in a routine of character stories intermingled with a song or two should prove the solid hit of this bill. His material is up to the minute and his delivery clean and clever. Manning and Ball, with their character studies and comedy songs and Braidwood and Rubie, "When New York Meets Cheyenne," will add Evelyn Du Fresno, "Sweet Singer of

Songs," brings a dainty miss with an inimitable personality and possessing world of pep, in a musical cycle of her own exclusive song successes. Brown's Saxophone Sextette, "A Musical Treat," brings the biggest jazz orchestra in the world. This aggregation of jazz dispensers, are exclusive Columbia Phonograph artists and their records are one of the best sellers in the musical world. They are coming to the Pacific Coast to play one of the leading theatres in San Francisco and having a Sunday open they were procured at great expense to play this house. No one can afford to miss this treat. May McAvoy in "Through a Glass Window" is the film attraction.

TRUNK LINES FRANTIC FOR PORT BERTHS

No one realizes as much as the railroads, the big things that are in store for Richmond for the future, and the fact that both the Santa Fe and the South Pacific are making frantic efforts to get their lines laid so that they will traverse the industrial section of the city, near the water front, that is now being improved, shows that they propose to be ready for the heavy traffic that is bound to be along the water front, as the result of the many industrial enterprises, that are sure to locate.

The land of Procter and Gamble is the pivotal point at the present time, and just as soon as the land that is now being filled by the dredger, has a chance to drain and settle, it is understood that the active work of constructing the \$2,000,000 factory is to start. The selection of this city by the Procter and Gamble plant, simply means that many other factories will follow.

Many cities on the Pacific Coast made strenuous efforts to secure this big factory, but after the eastern representative, had visited the most important cities of the coast he decided that there was no place that afforded such advantages for the future as Richmond.

A factory such as is proposed to be constructed means an employment of about 2,000 people, and this means an additional population to Richmond of approximately 10,000.

Negotiations are now in progress with two other big concerns, particulars of which the Record-Herald is not at liberty to divulge at the present time, which will be as large, if not larger than the Procter and Gamble concern.

Kratzer Drives Chevrolets Out From Factory

C. C. Kratzer, local Buick and Chevrolet dealer had a driveway from the Chevrolet factory on Foot-hill boulevard, Oakland, yesterday. This is the second carload of cars this week from the factory. This means that Kratzer has been selling about one Chevrolet a day since the first of the month.

Next week he will receive two carloads of Buicks, each containing three Buick 4-cylinder touring cars and two Buick 6 cylinder cars. The Buicks are being delivered from the factory at Flint, Michigan, and their owners are patiently waiting for their arrival.

No axes to grind, no hypotheses suppressed, get the unbiased news in the Record-Herald.

Soda Water Soon in the Old City Hall

Charles W. Barrett Company, San Francisco, the concern that purchased the old city hall from George S. Wall, has a force of workmen remodeling the building, and getting it in shape for a first class soda water manufacturing plant.

Just as soon as the preliminary work is completed the modern machinery will be installed, and Richmond will have one of the most modern plants of its kind on the coast.

The cost of the property represents an investment of thousands of dollars, and the changing of the building over for industrial purposes and the installation of machinery will represent an additional large sum.

WIDENING OF CHANNEL IS NOW PORT PROSPECT

It is hard to visualize for the average person, just how important the present harbor improvement work is to the city of Richmond. The dredger is busy making a channel 200 feet in width and 24 feet in depth from the six fathom mark clear up to the end of the inner harbor.

The distance between the training walls is 1200 feet, and the suggestion made to the council last Monday night by Colonel Herbert Deakyn, that the city plan to put up another \$100,000 to be matched by the government with the same amount, for a second contract, means still greater things.

Those who have been very active in harbor development work, and who have been able to look ahead and see just what this work means for Richmond, are urging Colonel Deakyn to recommend to the government that the second contract provide for the widening of the channel to 400 feet. This second contract would also take care of the completion of the training walls.

The vast amount of mud that would be taken out in the new work, would reclaim a vast acreage of marsh land, which would be very valuable for industrial purposes, and in addition to benefitting many of the private property owners, would give the city very valuable sites, which could be leased to factories for long terms at a very small rentals.

Industries Seek Such Sites As Offer Them The Best Facilities

Industry will locate in the place where it can secure the best facilities, and Richmond's inner Harbor, around which there are many acres of level land that can be reached by the railroad and where factories may locate so as to secure water frontage and rail connection, will be the home of a large number of industries now seeking locations on the Pacific Coast.

Richmond is on the eve of a great development, and the city is urged to do everything in its power to assist these industries in the matter of rail and water transportation.

At a hearing before the City Council the City Planning Commission, in which a number of citizens and property owners are included, Mr.

Joe Jefferson's Son In Rip Van Winkle Tops Macdonald Bill

It is interesting to note that Thomas Jefferson, besides having been starred in "Rip Van Winkle" on the stage for twenty five years, has at one time or another played almost every part in the "cast" while appearing in support of his father, the world famous Joe Jefferson. For a long time, too, before Joe gave up playing the lead in "Rip," Thomas, when his father was either tired or indisposed, took his place in the playing of the leading role. And so great a master of make-up as he, that it is safe to assert that not a single member of the audience knew the difference.

When Joe Jefferson retired from

A. K. Frye, Industrial Agent of the Southern Pacific Company, in discussing plans that his company had for Richmond, stated that they were desirous of securing the right of way along Cutting Boulevard or Potrero Avenue, so as to make connection with the main line of the Southern Pacific and the industrial property surrounding the inner Harbor. During the discussion it was brought out that many large eastern industries were considering Richmond as a location for their western branch, and the City Council and the citizens of Richmond were urged to do all they could towards assisting in getting the Harbor completed, and making the entrance of the railroads to the Harbor as easy as possible.

the stage, he gave Thomas his entire wardrobe, and so when you see "Rip Van Winkle" at the Macdonald theatre today you will see the famous son of a famous actor appearing in the very costumes worn by his father before him.

Producer-Director Ward LaSalle, who created the picture in which Thomas Jefferson so ably plays the leading role, claims that "Rip Van Winkle" is as fine a production as the screen has ever known, and members of the Hodgkinson Organization who are releasing the picture agree most enthusiastically with Mr. LaSalle, so don't fail to see this splendid bit of entertainment when it comes to the Macdonald, for you are assured of a very great treat.

L. L. PAGE RUSHES WORK ON 3 COURTS

Contractor L. L. Page is taking advantage of the good weather and is rushing work on the Hall tennis courts, that are being built by the city for the benefit of the people of Richmond.

The courts will be regulation in every character, and are located on Nevins Avenue between Twenty-fourth and Twenty-fifth streets.

This week Page has had a large force of workmen busy pouring the cement, and before another week passes it is believed that the work of putting on the asphalt topping will be started.

When completed the courts will represent an outlay of over \$10,000.

DUPLEX ALCARAZ

Seven Savings with the 3-fuel stove

1. The Duplex-Alcazar burns gas or coal or wood. It burns them singly or together and changes from fuel to fuel in an instant.

2. It saves the fuel because the perfect heat control avoids spillage and insures cooking par excellence. It cuts fuel bills by enabling you to burn the fuel that is most suitable at the time.

3. It saves space because the Duplex-Alcazar with its three fuel capacity takes up no more room than one old-style stove.

4. It saves nerves because it never makes the mistakes you are subject to with the stove you now have.

5. It saves health by keeping the kitchen comfortable the year 'round. In summer you can burn gas and keep cool—in winter when you want warmth, use the coal or wood part of the Duplex.

6. It saves time by making cooking quicker and easier.

7. It saves steps because the two stoves are in one.

These are just a few of the many reasons why it will pay you to have the Duplex-Alcazar. Let us show it to you.

IMAGINATION and VISION

The story teller's fancy created Hop-o'-My-Thumb and the seven-league boots—the step of twenty-one miles was the limit of his imagination.

Accomplishment as wonderful as the imagery of the fairy tale has followed the vision of Alexander Graham Bell—the instantaneous transmission of the human voice a few feet or thousands of miles.

The seven-league boots exist only in the minds of "the little folks." Over 33,000,000 conversations a day in the United States testify to the value and importance of the telephone in the elimination of distance in the social and business activities of a nation.

Every Bell telephone is a Long Distance station.
